

SPRING CHECKLIST

PLANT HEALTH CARE FOR EVERY SEASON

- ☐ Remove critical risk trees
- ☐ Fertilize trees and shrubs (as part of your normal annual program)
- ☐ Inspect trees and shrubs for standing water and/or flood damage
- ☐ Plant new trees and shrubs
- ☐ Prune dead, diseased or unsafe branches
- ☐ Cable, brace or remove weak limbs to prepare for severe weather
- ☐ Mulch trees and shrubs as appropriate
- ☐ Weed beds, cut back perennials and trim fall flowering shrubs as appropriate
- ☐ Inspect trees and shrubs for insects and diseases, and treat appropriately
- ☐ Consider lightning protection installation on mature or treasured trees in advance of spring storms
